The rejection of Keyser's statue of President Arthur by the Park Board's Advisory Committee for lack of artistic merit prompted Park Commissioner Henry Winthron Gray to offer a resolution at yesterdar's meeting of the Board providing for a report by competent authority on the character of all the city's

statuary.

The committee to make this report named in Commissioner Gray's resolution, which was adopted, is composed of Seniptors Augustus St. Gaudens, J. Q. A. Ward, and Paniel C. French. These gentlemen are requested not to report on any of their own work some of which is in the public parks, notably Ward's Shakespeare in Central Park and St. Gaudens's Farragut in Madison Square. Very few of the statues to be reported on have been accepted on the recommendation of the Fark Board's Advisory

be reported on have been accented on the recommendation of the Fark Board's Advisory Committee on Art as at present constituted. The present members of that committee are Henry G. Marquand. Thomas W. Wood, and Napoleon Le Brun.

Commissioner Gray had prepared a resolution which he introduced to the effect that if the reservoir should be proved from Bryant Park, and if the City Hall should be redected there, and if the City Hall should be redected there, and if the City Hall should be redected there, and if the City Hall should be redected there, and if the City Hall should be redected there, and if the Hilpary be kept open for the public on certain evenings of the week and on part of Sunday. Action was postponed until the executive session, after which nothing further was heard of it.

Landscape Architect Van, presented plans for the proposed cathedral parkway, which will be 110th street, widened between Seventh avenue and Riverside drive. Engineer Releage was requested to furns the Board with an estimate of the cost of the improvement.

On motion of Commissioner Tapien, the Bridge Committee of the Board of Supervisors of Westchester county were requested to confer with the Purk Commissioners relative to the building of a new bridge from Pelham Bay Park to City Island. On the Commissioner's motion, also, the Beard of Estimate and Apportionment was requested to issue bonds to the extent of \$4.000 to provide for a topographical survey of Moshiou Parkway.

The memorial of the mounted police to be relieved from their millorn of riding breeches and top boots during the summer months was rejected.

The Board of Education Discusses Finance

At 10 minutes past 40'clock yesterday President Adolph L. Sanger of the Board of Education let fall a new ivery gavel presented since the last meeting by Public Printer Martin B. Brown, who has not secured this year's Board of Education printing, and the business of the

After some formalities and eloquence a telegram from Commissioner Crosby, who is in Washington, relative to the schoolship St. Mary's was read. It said that Uncle Sam had offered to provide the vessel with new masts, yards, sails, i.e. if the Board of Education would see that her hull was repaired. It was stated that it would east the city \$0.500 to repair the hull and parhaps more. Commissioner Straus said he was averse to asking the Board of Estimate for any more money for the St. Mary's.

Why, when we go to them," he said, "the

Beard of Estimate for any more money for the St. Mary's.

"Why, when we go to them," he said, "the Mayer and the beard of Estimate say. 'Drown your old carbuncle.'"

Some of the Commissioners smiled at this slur on the gallant St. Mary's, which is, it is said, one of the oldest huiks in the savice. Commissioner Lummis arose quietly and said slowly that, while he was no anologist for the Board of Estimate, he was inclined to believe that if the Board held any such opinion about the glorrous St. Mary's, they probably said "Drown your old carbuncle." Instead of "Drown your old carbuncle."

The matter was finally referred to the Nau-

"Drown your old barnacle," instead of "Drown your old carbunele."

The matter was finally referred to the Nautical Sebool Committee. A motion was then made that Commissioner Crosby be instructed to notify Uncle Sam that the Board would accept any masts, salis, and yards he had to give, and to keep dark about what the Board, would do. A substitute motion was then ofered which went oneb etter by adding the words. "Accept anything we can get and we will repair her if we can get the money."

Commissioner Harris said the Board was, or was supposed to be, a dignified body, and he disapproved of such levity. Both motions were withdrawn. Then, the business of the meeting having been disposed of, the Board of Education adjourned.

## A FRIGHTENED STEER RUNS LOOSE. Much Excitement, but No One Hart Except the Asimal Itself.

A steer broke loose from a herd of cattle that was being driven to the slaughter houses on the East River yesterday afternoon about 1 o'clock, and managed to cause a lot of trouble before it was killed. The steer was almost the last of the herd, and went along quietly until it reached the foot of East Forty-fourth street. Then it veered, and started at top speed toward the river. A crowd of men and boys gave chase

the river. A crowd of men and boys gave chase. At Second avenue it almost ran down a bally carriage. A young man stood on the west crosswalk, despite the mud, and waved his hands so vigorously that the unimal turned into Second avenue.

It had full possession of the street for two blocks. Drivers hastily pulled their teams out of the way, and pedestrians waited until it passed. No one seemed to collect sense enough to act until the animal had passed. At Forty-sixth street the ateer ran through and turned up Third avenue. Charles Peters of S84 Second avenue got in the way and was knocked down. Then it turned into the yard of Clausen's Brewery, 30% East Forty-seventh street, where Old Tansen, an employee, shot the brute. The carcass was handed over to the driver of the herd.

MORE RELICS FROM THE SHIP. The Excavation Actively Resumed-A Queen

The excavation of the old ship found buried in Front street and which antiquarians gen erally agree was the Morning Star, a privateer blown up in this harbor on Aug. 7, 1778, has progressed rather slowly for the last few days. Yesterday, however, work was actively re-sumed, and quite a number of small relics sumed, and quite a number of small relies were brought to light. The only relie out of the usual unearthed was an antique yellow earthenware jar of about two gallons' capacity. It was badly broken, but the pieces were all found in the same place. The jar was found some distance from the place on the ship where the explosion occurred, and, from the pieces all being together, the antiquarians who daily haunt the old hulk argue that it must have been broken after the vessel went down by the refuse thrown in upon the deck when that territory was filled in.

A truck load of the blackened, murky-looking old rila from the ship were taken to the up-town shops of the Broadway Cable Company yesterday afternoon. It was said that Contractor Crimmins would have these cleaned and cut into various designs to be presented as mementoes to members of the New York Historical Society.

## YEE'S JOINT RAIDED.

A Descent Upon the Opium Den Annex of a Harlem Laundry.

Yee Yun, a repulsive-looking Chinaman. Who has kept a laundry at 2,074 Second avenue for several months, was a prisoner in the Harlem Police Court yesterday. Another prisoner was Lucy Cannon, a rather pretty girl. 22 rears old. Shelives at 304 East 102d street, and claims to be a dressmaker. The Chinaman was necessed of maintaining an opium joint and the girl of "hitting the pipe." Both were held under \$300 tail. For some time the police have regarded Yeo's place with suspicion. Yesterday morning Policeman Brunner found the lausdryman placidly ironing shirts, while in a rear room was Lucy reclining on a bunk, smoking opium. Two pipes and the usual smoking opium. Two pipes and the usual smoking outfit were found. The girl and the Chinaman were arrested.

Yee claimed that he only kept the pipes for this own use and denied maintaining a joint. The girl said that she had not been smoking, but was waiting at the laundry for her sister. years old. She lives at 304 East 102d street.

CAREY'S PISTOL NOT USED.

sents Produced to Contradict Wheel The trial of David Wheeler, alias James Banchett, ex-convict, for murdering Detec-tive John Carey at Seventh avenue and Twenty-ninth street on Nov. 3, was continued

yesterday in the General Sessions before Re-

corder Smyth.

Detective Sorgeant Vallely, who described on Tuesday what occurred shortly after the shooting of Carey, being recalled for further cross-examination by Lawyer Stephen S Blake, Wheeler's counsel, testified that when Carey's body was taken to the police station Carey's pistol was found in his hip pocket, enclosed in a leather case. It did not appear to

have been discharged. Resale Chapman, who has been an inmate of the House of Detention since the shooting, testified that while she was with Wheeler she saw a man coming across the avenue, and Whoeler started to run. The man, who proved to be Detective Carey, caught hold of Wheeler and held him. She heard a pistol shot and saw the flash. She saw no weapon or other object in the hand of Detective Carey at any time.

object in the hand of Detective Carey at any time.
Edward Taylor, bartander, testified that Wheeler had said to him: 'If Carey wants me he will never take me alive.'
Mr. Wellman rested the people's case.
In the opening for the defence Lawyer Blake said that he would show that Carey, who was in plain clothes, ran suddenly up to Wheeler, with a pistol in his hand, and that Wheeler used his own pistol in self-defence, not knowing who Carey was. used his own pistol in self-defence, not knowing who Carsy was.

Jonas A. Rossman, plumber, testified that Wheeler had worked for him on and off for the last eight years, and that his character had been good.

In cross-examination Mr. Wellman produced indictments on file in the Clerk's office of the General Sessions, the endorsements on which showed that Wheeler had spent six out of the last eight years in State prison upon various convictions.

The trial will be continued to-day.

THE "OLD AND UGLY" HUSBAND.

Joseph Papazian Does Not Appear in Court, and Search is Made for Him. The crowd which went to the Brooklyn City Court yesterday morning to hear Joseph Pap-

azian, the aged husband of the pretty young Armenian girl, May Papazian, who was blindfolded at her wedding, tell his side of the story went away disappointed. The old Armenian didn't appear.
A vain search had been made for him. The house at 1,452 Myrtle avenue, Brooklyn, was

closed, and a neighbor said the occupants had moved out some time in January. It was also discovered that Papazian had given up his

moved out some time in January. It was also discovered that Papazian had given up his place with the John Stephenson Company. So it was decided to postpone the case until another attempt had been made to get the missing husband into court. It is understood that Papazian does not latend to oppose the motion made by his young wife for the annulment of her marriage, which took place in Harpoot, Armenia, seven years ago.

It was suspected at first that Papazian had gone back to Armenia, but it was discovered yesterday afternoon that this is probably not the case. On Feb. 5 an application was made to the Gerry society by a Joseph Papazian to have his six-year-old child committed to an institute. Agent King of the society found that the applicant was about 70 years old, and that he occupied a small room at 147 Fast Twenty-seventh street. The man told him that he came from Armenia three years ago, and had been descrited by his wife about a year after arriving in this country. He said he had been in Bellevue Hospital for several days after giving up his place with the John Stephenson Company. Papazian said he had been making SS a week, and the Gerry society refused to take the boy, who was remarkably well dressed for a nerson in his situation. Papazian gave up his room at 147 several days ago. As it is asserted that he had no children by his young wife. May Papazian, this apparent discovery adds interest to the case.

WHITE-HAT MCARTHY WINS.

He Gets Judgment for \$11,350 Against the Altonwood Stock Farm.

Daniel McCarthy, the California turfman, known as White-hat McCarthy, obtained a verdict for \$11,350 in default before Justice Patterson of the Supreme Court yesterday against the Altonwood Stock Farm, S. Webber Park, and Charles W. Parker. McCarthy was in court with his white fluffy beaver. He had in court with his white fluffy beaver. He had been interested in the stock farm, and to close up his relations with the detendants, who were connected with it, they had given him notes for \$10,000, payable Dec. 10, 1850.

The defendants set up that the money was to be paid only after a sale of the stock of the farm, which consisted of theoroughbred running and trotting horses, and that McCarthy had agreed to use his influence to make the sale a success. They declared, however, he had not done so, but had caused a report that the defendants could not give a good title to the horses. They asked for \$20,000 damages against McCarthy, but submitted no evidence in the trial.

The judgment was for the \$10,000, interest and costs.

ACCUSES THE NURSE OF ROBBERY.

Mrs. Nicholson Says Her Pocket Was Picked While She Watched at a Sick Bed. Lafayette Jackson of 333 Spring street. professional nurse, has been employed for the past week in the boarding house of Mrs. Annie E. Nicholson. 35 Vandam street, in taking care of a boarder named Dourigan, who is suffering from crysipelas, was a prisoner in Jefferson Market. Court vesterday. Mrs. Nicholson charged him with having stolen \$250 from her pocket on Monday night when she was watching at Mr. Dourigan's bedside. She fell asleep in her chair, and was awaked by feeling Jackson's hand on her arm. She left the room and went to bed. On arising next morning and teeling in the pocket of her dress for the money she found it was gone. Most of it helonged to the sick man. When she accused the nurse of taking it he denied it and said that he had done nothing but touch her arm to awaken her, fouring that her snoring would disturb the sick man. She had him arrested.

Jackson pleaded not gullty yesterday, and was held in \$1,000 ball for trial. suffering from crysipelas, was a prisoner in

MINORITY STOCKHOLDERS OBJECT. The Leasing of the Brooklyn City Railroad Company Causes Opposition.

The stockholders of the Brooklyn City Railroad voted yesterday by a decisive majority in favor of leasing the road to the Brooklyn Heights Cable Company for a term of ninetynine years for an annual rental of ten per cent, of the capital stock of \$12,000,000. On cent, of the capital stock of \$12,090,000. On Tuesday the stockholders of the cable company unanimously decided to accept the lease. Yesterday Lawyer Church, as counsel for some of the Brooklyn City stockholders, who contend that their rights have not been respected in the recent deals, obtained from Judge Clement an order to show cause why an injunction should not be issued restraining the company from making the lease, and the argument on the injunction will take place on Saturday.

TORONTO, Feb. 15.-There is a good deal of dissatisfaction among Canadians of all parties here with the failure of the Dominion Government to make greater reductions in the tariff. The reduced duties on coal oil will not enable American oil to be brought in here and sold at American oil to be brought in here and sold at a sufficient reduction from present prices to seriously comprete with Canadian oil. The reduction of the binder twine duty will seriously injure the trade of the Canadian Cordago Trust. It is believed that the Dominion Government is in hopes of making a trade with the Cleveland Administration, and is postponing tariff reform so as to be in a better position to offer concessions for a reciprocity treaty.

treaty.
Cattle dealers in Oniario who prefer corn to barley for fattening now propose that Canada should remove the duty on corn if the States consent to remove the duty on barley.

No mineral water will produce the beneficial results that follow taking ONE ONLY of BEECHAM'S PILLS" with a glass of water immediately upon arising in the morning.

THE TAXABLE PARTY OF THE PARTY

THAT ELEVATOR SICKNESS

IT HAR A RERIOUS MEANING AND SHOULD HAVE ATTENTION.

A Physician Tells Us We Should Look Out for the Effects of These Unhealthy Motions at the First Appearance of the Dizziness.

"I must get out of this. I feel sick and

The speaker was a well-known business man who was going to his office on the fifth floor of the Mills building, yesterday, by means of the passenger elevator. He got out at the third floorand walked up the rest of the way. A physician who noticed this incident, in speak-ing of it afterward, said: "That is a kind of sickness which is more common than most people suppose. In fact, hardly a week goes by but what I am called upon to treat people who are suffering from it. I call it 'elevator' sickness,' although it is not always due to riding in elevators, but arises from a disease which is made apparent by motion of that kind. As elevators are being more and more used, the presence of this complaint is becoming more generally felt."

"You speak of a disease which is shown by this tendency to dizziness and sickness in elevators. Will you explain what you mean,

doctor?" the writer asked. The doctor thought a while before replying. and then said: "These symptoms show that there is too much bile in the system, and that means that the liver and kidneys are more or lass out of order. For this reason people who feel this dizziness and sickness should never allow it to pass unnoticed, but should take steps to remedy it without delay. If they neglect to do so they will find before very long hold on them that they cannot shake it off, and doctors will be powerless to cure it."

Every one who has suffered from the painful symptons so plainly described in the doctor's words will be interested in the following remarks on the subject, which should be care-Mr. Francis McGovern, residing on 123d st.

New York, says: "For several years I had strange symptoms, great pains and stiffness in my back, frequent headaches, poor appetite, irregular sleep, and a constant desire to void. Motion of any kind was unbearable. Friends advised the use of different remedies, but I found that there was only one thing that would help my condition. I am a well man to-day, due to the use of that great remedy. which is Warner's Safe Cure. It is the best medicine ever made, and holds a high place in my estimation."

D. H. Young, foreman of the shoeing shop of the Sixth Avenue Railroad Company, says: "I have seen the time when I'd have given \$100 for a moment's freedom from pain. Many an hour have I walked the floor to gain relief, which only came with exhaustion. I had suffered for twenty years from kidney disease. At times it had been so bad that I could not ride two blocks in the cars without feeling a desire to get off and vold. At that stage of my disease my wife begged of me to try a certain remedy, but I objected, as I had no faith in it. but finally I yielded to her wishes. I am rejoiced to say that by the use of Warner's Safe Cure I was restored to health and am a well man to-day."

Mr. Jesse Larrabee, the well-known counsellor-at-law, whose office is at No. 55 Liberty street, says: "I have used Warner's Safe Cure personally, and with the best results. I have recommended its use to very many friends and acquaintances during the past ten years. and it has invariably proved eminently satisfactory. It cured my brother of Bright's Disease, and has always been a cure for kidnes troubles in all cases that I have known, and

where I have recommended it." These people speak from experience. Their words are earnest and outspoken, and are the best testimony that can be presented in behalf of the great Safe Cure that has done so much

Edward Suckman Kills Himself.

Edward Sackman, 37 years old, shot himself through the head about 5 o'clock yesterday alternoon at his home in Spring street. West Hoboken. He kept a delicatessen store. and lived over it with his wife and two children He has been greatly depressed on account o He has been greatly depressed on account of business troubles. Almostian hour before he shot himself he tried to hang himself in a room at the rear of the store, but his wife discovered him. She pleaded with him until he promised not to make any further attempt upon his life. He then went out for a walk. He came hackabout 5 o'clock, and, placing the muzzle of a revolver to his right temple, killed himself almost instantly.

Long Island Burgiaries.

Five depots on the Rockaway branch of the Long is and Railroad were broken into on Tuesday night by thieves, who, however, got nothing of value. The depots were those at Rosedale. Springfield, Fenhurst, Cedarhurst, and Woodsburg.
